SOFTWARE ENGINEER

A motivated Computer Science Engineering student with a strong foundation in programming, web development, and problem-solving. Fluent in English, I'm passionate about developing efficient, user-centred solutions. Eager to contribute to impactful projects while continuously learning and adapting to new challenges in a dynamic environment.

EDUCATION

BSc in Computer Science Engineering

University of Pécs, Hungary | Expected Graduation: January 2026

- Relevant Coursework: Data Structures & Algorithms, Web Development, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python, Java
- **Web Technologies:** HTML, CSS, React, Node.js
- **Database:** MSSQL, PostgreSQL
- **Tools:** Git, GitHub, WordPress, Agile Development, Figma
- **Other:** Graphic Design, UI/UX Design, API Integration (REST, third-party APIs)

SELECTED PROJECTS

MovieHive (React, CSS)

- A React-based movie discovery app that allows users to browse popular movies, search for specific titles, and save favourites. Built with React + Vite, CSS, and The Movie Database (TMDb) API.

Portfolio Website (React, Tailwind, Framer Motion)

- Designed and developed a personal portfolio website built with React to showcase development skills and projects, with a responsive layout for all screen sizes.

Employee Wage Calculator (Java)

- Built a system to manage and calculate employee wages, overtime, and missed hours, using **object-oriented principles** and file input/output processing.

Blood Givers Register (C)

- Developed a **command-line program** for managing blood donor information, demonstrating proficiency in **data management** and **file handling**.

EXPERIENCE

Freelance Designer

Remote | Ongoing

- Create visually appealing branding materials including websites, flyers, social media graphics, and print designs for corporate events, and organizations enhancing client brand identity.

Customer Care & Sales Representative (Remote)

Trucking42, Ukraine | Feb 2023 – July 2023

- Provided **technical support** for software solutions, improving client satisfaction by resolving issues and communicating product benefits effectively. Developing strong communication skills essential for **cross-team collaboration**, enhancing my ability to explain solutions clearly and effectively.

Customer Service Specialist (Remote)

Alliance Health, USA | July 2021 – Jan 2022

- Assisted clients with 100+ technical inquiries, enhancing **attention to detail**, **analytical skills** and building a strong foundation in debugging and problem-solving. While coordinating with health professionals to ensure seamless service

EXTRACURRICULARS & ACTIVITIES

- **Google Developer Club Member** at University of Pécs: Participated in coding challenges and hackathons.
